Shampoo for all hair types

With Aloe vera, hemp oil, extracts from seven herbs, and Dead Sea salt

Contains Aloe vera extract which supports healthy hair growth, dramatically improves hair quality, and provides volume and a beautiful shine. This shampoo penetrates deep into the hair structure, deeply hydrating and regenerating damaged and split ends. Natural substances in hemp oil strengthen the hair, effectively nourish it, and perfectly prevent it from drying out. Fatty acids in hemp oil are similar to those found in the human body and hydrate the scalp, protect the hair from drying out, and prevent dandruff. This shampoo also contains extracts from seven herbs - Field Horsetail, White Nettle, Coltsfoot, Stinging Nettle, Silver Birch, Camomile, and Greater Burdock - for better hair appearance and quality. Dead Sea salt contains many essential minerals and microelements with medicinal and calming effects.

Conditioner for all hair types

With Aloe vera and extracts from seven herbs

Aloe vera extract nurtures your hair with its beneficial action, supports hair growth, dramatically improves hair quality, and provides volume and a beautiful shine. It penetrates thoroughly into the hair's structure; deeply hydrating and regenerating damaged and split ends. The conditioner contains extracts from seven herbs:

- Field Horsetail strengthens the hair, disinfects and nurtures the skin, and reduces dandruff
- White Nettle is beneficial for oily hair, as it reduces excess oil and fights dandruff formation
- Coltsfoot improves the hair's condition, making it stronger and providing extra shine
- Stinging Nettle strengthens the hair and helps it to fight dandruff
- Silver Birch promotes shine and a healthy look, fights dandruff, and reduces excess oil, leaving hair shiny and supple after washing
- Camomile calms the scalp and contains the antiseptic component alpha bisabolol, which has anti-inflammatory and anti-microbial characteristics and which enhances the hair's shine
- Greater Burdock is an ancient medicinal plant traditionally used for strengthening the hair roots and for treating damaged hair. It contains substances which effectively prevent hair loss and regenerate the hair's roots.

Silicones contained in the conditioner give the hair high shine and provide protection during drying and straightening. Silicones coat and enclose the outer structure of the hair. This shield protects against split ends, heat and mechanical damage, and UV radiation. Silicone coating is partially water-resistant, preventing both moisture loss and tangling in humid weather.

Shampoo for coloured and dry hair

With Aloe vera, hemp oil, extracts from six fruits, and Dead Sea salt

Contains Aloe vera extract which supports healthy hair growth, dramatically improves hair quality, and provides volume and a beautiful shine. This shampoo penetrates deep into the hair's structure, deeply hydrating and regenerating damaged and split ends. Natural substances contained in hemp oil strengthen the hair, effectively nourish it and perfectly prevent it from drying out. Fatty acids in hemp oil are similar to those found in the human body and hydrate the scalp, protect the hair from drying out, and prevent dandruff. Hemp oil restores hair and scalp moisture which we lose every day due to the effects of the sun, dry air and improperly-used soap, shampoo, and other cosmetics. This shampoo contains extracts from six fruits: lemon, apple, peach, mango, apricot and kiwi. Dead Sea salt contains many crucial minerals and microelements with medicinal and calming effects.

Conditioner for coloured and dry hair

With Aloe vera and extract of six fruits

Contains Aloe vera extract which supports healthy hair growth, dramatically improves hair quality and provides volume and a beautiful shine. This conditioner penetrates deep into the hair structure, deeply hydrating and regenerating damaged and split ends. The conditioner is very effective in treating coloured, dry or damaged hair. It contains extracts from the following six fruits:

- lemon is beneficial for promoting hair growth
- apple boosts the hair energy, strengthens it, and protects it in cold weather
- peach revives, softens, and nourishes the scalp
- mango revives and regenerates hair, restoring its natural hydration and strength, leaving the hair silky soft and healthy looking
- apricot is known for its nourishing effects, deeply hydrating the skin and restoring the hair softness and elasticity
- kiwi makes the hair smooth and boosts volume, hydration and natural shine

Silicones contained in this conditioner provide excellent protection for coloured and damaged hair. They excel at taking care of seriously damaged hair, especially the ends. Silicones coat and enclose the outer structure of the hair. This shield protects against split ends, heat and mechanical damage, and UV radiation. Silicone coating is partially water-resistant, preventing both moisture loss and tangling in humid weather.
