

# SHAVING COSMETICS WITH **Aloe vera**

The product line of shaving cosmetics containing aloe vera delivers softness, smoothness and moisture to your skin and guarantees the elimination of skin irritation after shaving. Moreover, these products also contain the unique ingredient, allantoin, which - besides regenerating effects - also helps to heal your skin.

## **Aloe Vera**

Apart from the wide-ranging effects if used internally, aloe vera is also highly valued for its excellent dermatological action. Its adaptogenic features satisfy all skin types. Aloe vera supports the processes of cell regeneration, heals wounds, its astringent qualities stop bleeding and prevent scars. Aloe vera is also excellent for acne treatment and related dermatological problems. Aloe vera has lubricating and antioxidant effects (elimination of free radicals). The aloe vera contained in ESSENS shaving cosmetics is produced in organic plantations in Mexico.

## **Allantoin**

supports the regeneration of tissues and is frequently used in cosmetics and medicine for its valuable qualities. Allantoin is a common ingredient in anti-acne creams, cleaning and soothing elixirs, regenerating skin creams, shower gels and shampoos. Moreover, allantoin is also used in medications for healing wounds, skin inflammation and fractures, and is also used internally to treat damage to the mucosa of the pharynx and stomach. Allantoin is a regular component of the ingredients of oral hygiene products (in particular products to combat periodontitis).

## **SHAVING CREAM ESSENS with Aloe vera and Allantoin**

A protective and lubricating shaving cream for comfortable, smooth and fast shaving. The ingredients of extracts of wheat sprouts, beer (wine) yeasts, hyaluronic acid and panthenol help to regenerate and lubricate the protective lipid layer of damaged skin. They are effective in the alleviation of itching and the soothing of irritated skin. This shaving cream, with its composition and fine fresh aroma, has been created for both men and women

## **AFTER-SHAVE BALM with Aloe vera, Allantoin and shea butter**

A soothing and lubricating after-shave balm with a pleasant woody-spicy aroma, perfectly soothes and protects shaved skin. It contains shea butter, formed especially by a complex of beneficial unsaturated fatty acids. These acids are easily absorbed by the skin and they bind water exceptionally well (the skin is lubricated). Shea butter protects the skin against harmful climatic effects, improves skin elasticity and slows down the aging process. Anti-inflammatory and healing effects, contains vitamins A, D, E, F and supports natural skin immunity. This after-shave balm is also recommended for men with sensitive skin.
