# Clea'NS - dietary supplement

pure natural antiparasitic

Clea'NS contains an effective combination of four substances, in particular the extract of Magnolia Bark, Enzyme - Protease from *Aspergillus Oryzae*, Black Pepper Extract and Vitamin A:

- the extract from the bark of Magnolia significantly improves the function of the intestinal tract as regards regular bowel emptying
- due to the enzyme - protease from *Aspergillus oryzae*, proper cleavage of proteins is achieved
- the extract of black pepper acts not only as an inhibitor of enzymes, but also has a positive effect on the functioning of the nervous system
- Vitamin A significantly contributes to maintain an optimal condition of mucosa including that of the intestinal tract

## For whom is Clea'NS suitable?

There are many different parasites in the human body that can cause serious health problems. Clea'NS is suitable for anyone who wants to detoxify their body, eg. When starting a proper diet or just a prevention.

**Ingredients:** Cellulose, Extract of Magnolia Bark, Proteolytic Enzymes, Potato Starch, Thickening Agent (Hydroxypropyl Methylcellulose), Anti-Caking Agent (Magnesium Salts of Fatty Acids), Black Pepper Fruit Extract, Vitamin A

**Recommended dosage:** 1 tablet per day (we recommend regular use as a 2-3 months treatment omitting use at least one month after).

**Storage:** Store in a dry place at temperature below 30 °C. Keep out of reach of children.

**Caution:** Do not exceed the recommended daily dose (maximum daily dose is 5 tbl.). Dietary supplements are not a substitute for a varied diet. Not suitable for children, pregnant and lactating women. Do not use in combination with alcohol. This product contains no sugar, gluten or lactose.
