Hard'EN - dietary supplement

pure natural product to support male erection

Hard'EN contains in appropriate proportions an effective combination of four substances: Green Tea Extract with Catechins, Amino Acids L-Ornithine, L-Citrulline and Black Pepper Extract:

- the extract of green tea with catechins ensure the elasticity of blood vessels
- amino acids are components of proteins and peptides, in effect structural proteins, enzymes and many hormones, which form functional substances in the body. L-Citrulline significantly increases blood circulation and is used to support sexual function. L-Ornithine significantly enhances the effect of L-citrulline
- the maximum usage of the substances green tea and amino acids are supported by black pepper extract that acts not only as an inhibitor of enzymes, but also has a positive effect on the nervous system

For whom is Hard'EN suitable?

For adult men of any age who experience dissatisfaction with the quality of their erections.

Ingredients: L-ornithine, Green Tea Extract, L-citrulline, Gelatin, Cellulose, Extract of Black Pepper Fruits, Anticaking Agent (Magnesium Salts of Fatty Acids), Potato Starch

Recommended dosage: 1 tablet 30 minutes before physical activity (to be effective, sexual stimulation is required, the product is not used on a regular basis).

Storage: Store in a dry place at temperature below 30 °C. Keep out of reach of children.

Caution: Do not exceed the recommended daily dose (maximum daily dose is 5 tbl.). Dietary supplements are not a substitute for a varied diet. Not intended for women and children. Not suitable for people with heart disease. Do not use in combination with alcohol. The product contains no sugar, gluten or lactose.
