Head'ES - dietary supplement

Head'ES contains coenzyme Q10 in a suitable combination with standardized herbal extracts and vitamins B with the following physiological effect:

- Coenzyme Q10 is a natural body substance that is also called ubiquinone Q10, Ubidekarenon, factor Q10 or also vitamin Q with physiological effects, because its various forms are contained in all living organisms and plays a role in important metabolic processes
- Ginkgo biloba extract acts in the microcirculation of the blood system including the brain, contributing to the brain's normal activities (cognitive / recognitive function and mental balance)
- black pepper contributes to the normal activities of the vascular and nervous system
- Vitamin B2 contributes to reducing tiredness and fatigue
- Vitamin B6 contributes to the normal functioning of the nervous system, which means normal mental activity, and to reducing tiredness and fatigue

Ingredients: Coenzyme Q10, Ginkgo biloba (Ginkgo biloba extract 24 / 6), the fruit of black pepper (Piper nigrum extract), coloring (riboflavin) Vitamin B6 (pyridoxine hydrochloride), filler (microcrystalline cellulose, cornstarch), stabilizer (hydroxypropyl methylcellulose)

Recommended dosage: 1 capsule in the morning during meal or when feeling the onset of a problem.

Storage: Store in a dry place at a temperature under 30 °C. Keep out of the reach of children.

Caution: Do not exceed the recommended daily dose. Dietary supplements are not a substitute for a varied diet. Not for children under 3 years of age.
