Slim'SS - dietary supplement

Slim'SS contains standardized herbal extracts in a suitable proportion, i.e. the extract of green tea catechins (*Camellia sinensis* folia non fermentata) and black pepper extract:

- green tea catechins contribute to weight control through the lipid metabolism (fat burning)
- green tea leaves also contribute to water excretion from the body
- black pepper contributes to normal digestion and weight control

Ingredients: green tea leaves (*Camellia sinensis* extract), fruit of black pepper (*Piper nigrum* extract), filler (microcrystalline cellulose, apple fiber), emulsifier (sucrose esters), fillers (corn starch), anti-caking substance (magnesium salts of fatty acids), stabilizers (hydroxypropyl methylcellulose, polyvinylpyrrolidone), glazing substance (talc), coloring (curcumin).

Recommended dosage: 2 tablets daily preferably 30 minutes before meals or during a meal (1 tablet before lunch and 1 tablet before dinner). The effect is multiplied by changes in eating habits and exercise.

Storage: Store in a dry place at a temperature up to 30°C. Store out of the reach of children.

Caution: Do not exceed the recommended daily dose. Dietary supplement is not a substitute for a varied diet. Not for children under 3 years of age. Contains caffeine – it is not suitable for children and pregnant women (caffeine content 7 mg in two tablets for daily consumption).

Slim'SS vit

We recommend to include additional fat-soluble vitamins A, D, E, K with the regular use of Slim'SS from the second month of use. It should not be combined with other multivitamin supplements. We offer Slim'SS vit as an additional complex of vitamins A, D, E, K in one tablet.

Dosage: 1 tablet daily in the morning

Package Content: 30 tablets
